SUMMARY

I am an enthusiastic web developer with strong skills in HTML, CSS, JavaScript (ES6+), and React.js. Experienced in building user-centric and responsive web applications using Tailwind CSS, Node.js, Express.js, and MongoDB. Eager to learn new technologies and improve my skills, I aim to create seamless and dynamic applications while collaborating effectively with teams to solve problems.

SKILLS

Expertise	React.js, Tailwind CSS, HTML5, CSS, Bootstrap, Firebase
Comfortable	JavaScript (ES6+), Node.js, Express.js, MongoDB
Tools	Git & GitHub, Visual Studio Code, Figma, Pixso
Soft Skills	Leadership, Communication, Teamwork, Time Management, Responsibility.

PROJECTS

Course Plus (E-Learning Platform)   **Live Link | Client Repo | Server Repo**

- Role-based Requests and Approvals: Teachers can request to add courses or classes, and students can request to become teachers. These requests are subject to approval or rejection by the admin
- Course Enrollment and Assignment Submission: Once students enroll in a course, they can submit assignments, while teachers have the ability to create assignments for their specific classes.
- Admin Control: The admin has the authority to approve or reject requests for various roles, such as teacher or course creation, ensuring control over the platform.

Technologies used: React, JWT, Firebase, Stripe, HTML, Tailwind CSS, Node.js, Express.js, MongoDB etc.

Marathon Game (Online Join Platform)   **Live Link | Client Repo | Server Repo**

- Allows users to view a small selection of events without logging in, which entices users to log in to the site. Also allows only 'authenticated users' to join the marathon game.
- Users can join marathon games and create events. Users can also view participants over time.
- If the user wants, he can edit the game he created and shorten the data he provided.

Technologies: HTML, Tailwind CSS, React, Node.js, Express.js, JWT, MongoDB, Firebase, Local storage etc.

Crow Cube Fund Collection (Online Help Platform)   **Live Link | Client Repo | Server Repo**

- The landing page shows Wazir campaigns that motivate users to log in.
- The user can create a new campaign by logging in. This Website is mobile friendly.
- Also, the website uses local storage and has a beautiful black and white theme combination etc.

Technologies: HTML, Tailwind CSS, React, Node.js, Express.js, JWT, MongoDB, Firebase, Local storage etc.

EDUCATION

Hons in Political Science
Gov. Bangla College, Dhaka – (2018-2019 to present)
CGPA: To be updated

COURSES & CERTIFICATES

Complete Web Development – Programming Hero (July 2024 – December 2024)   **Certificate Link**

LANGUAGES

Bangla: Native   English: Fluent   **Hindi:** Fluent
